Reasons for Allowance

The following is an examiner's statement of reasons for allowance: No reference was found anticipating or a combination of references found making obvious an apparatus for or a method of eliminating time delay errors by separating drive and compare waveforms and applying them to first and second channels wherein the first channel receives drive data and drive timing edge source data, the second channel receives comparison timing edge source information, signal levels and data and compensating for the delay errors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Comments

Claims 1-13 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Creek, Whetsel, Jr. '916, Whetsel, Jr. '987 and Mayder et al are cited to show prior art apparatus and methods for eliminating time delay errors during automatic testing of electronics devices.

Any inquiry concerning this communication should be directed to Ernest F. Karlsen at telephone number 571-272-1961.
